

Community Service hours can be positively fulfilled working at our facilities and our events, with our volunteers and with our staff. Our society has come to learn that teaching the value of volunteering, of giving to others, of giving something back, makes us all better individuals. Most Junior High Schools, High Schools, Scout groups, Synagogues, Churches, and many clubs and organizations require a number of Community Service hours from their youth.

- Our volunteers and staff are always happy to work with youth seeking to fulfill Community Service hours.
- We also work with non-violent offenders who must perform court ordered Community Service. Over a dozen court systems have approved us for their programs.
- Many kids and adults who start with mandatory Community Service find that volunteering is very rewarding and continue this practice into adulthood.
